

CabParts Online - Using the Custom Materials Order Form

What if I cannot find a material (panel, edgeband, slab door material, etc.) listed as available in the CabParts Online program?

For example, I want to use a Wilsonart laminate on my doors, drawer fronts, and finished end panels but do not see it listed as an option?

Answer: If you can't find a specific material (such as a Wilsonart laminate) or edgebanding listed in the CabParts Online program, follow these steps:

1. Look for the **"Custom"** option in the drop-down lists.
2. **The FasTrack catalog allows only stock case materials** - "Custom" is not a case material option in that catalog, but is available for edgebands and finished materials. Custom case materials are available in the **Complete** catalog only.
3. Select "Custom" to access your choice of up to 3 grained materials, 3 non-grained materials, or 6 edgebands.
4. Be aware that when you select a custom material the same numbered edgeband is *automatically* tied to that material (for example, band 3 to material 3). For a different edgeband, select a different number (here, anything but 3).
5. CabParts Online will take the custom items you've selected and use a "high average" material cost to *temporarily* price your order.
6. Use the separate **"Custom Materials"** order form to tell CabParts what your custom materials and edgebandings actually are.
7. Submit your online order and then email the Custom Materials form to orders@cabparts.com or FAX it to 970-241-7689.
8. Once we have the information, we will check pricing and availability, adjust your quote up or down as needed, and send you a job confirmation email with final pricing for your approval.

CabParts

Custom Materials

CUSTOMER	ORDER #	DATE

Directional / Grained Material Number	DESCRIPTION (laminare brand, color & number; veneer type & grade; melamine color; etc.)	GRAIN	
		V	H
1			
2			
3			

Non-grained Material Number	DESCRIPTION
4	
5	
6
