

Cabinet Material Selections

These materials are found in the drop-down menu selections in our CabParts® Online ordering system and are current as of 8/2024, BUT may change without notice. For current materials, see our Resources page on our website <https://cabparts.com>

Custom materials not listed here, such as laminates (Wilsonart, Nevamar, Pionite, etc.) are available as well. In the online selections you will see “Custom” listed as a type of material or edgebanding. Select it and we will assign each component a generic (high average) price, which we will adjust after the order is submitted but before your final confirmation. That way, you will have a quote available which will get you “in the ballpark” without having to wait for us to get exact pricing for those materials.

You will need to list, in the order “Project Notes” (upper right box in the Online order form), in the Custom Material Order Form, or in a separate email, what your custom materials are: manufacturer, name, code, etc. so we know exactly what you want.

CABPARTS® STOCK MATERIALS

- Rainier White
- Almond
- Gray
- Natural Maple
- Black
- White veneer core
- Prefinished C-2 Maple
- Paint grade Maple on MDF
- MDF Raw
