

WOOD DOORS & DRAWER FRONTS

CabParts® is pleased to make available, in addition to our flat panel laminate and melamine offerings, a selection of **unfinished** wood doors and drawer fronts in various species and styles.

We can help you reduce your time per job, produce more, and sell more, all while maintaining your standards for high quality.

- Each unit is cut to size, sanded and inspected one at a time, ensuring that you receive products you will be proud to use in your jobs.
- All solid wood panels are allowed to “float” within the frame with clearance on all sides to allow for expansion and contraction caused by changes of temperature and/or humidity.
- Arches are geometrically designed to maintain uniform style regardless of widths.
- Sizes can be in inches or millimeters. We will cut to the nearest 1/32” or whole millimeter and sizes are guaranteed to within +/- 1/32” of the given measurements.
- Standard thickness is 13/16”.
- CabParts® guarantees material and workmanship for one year from date of shipment. This guarantee is voided by improper storage, handling, or finishing on the part of the customer or final consumer.
- Warpage is guaranteed to 3/16”, however cabinet doors over 24 inches wide or 44 inches tall are not guaranteed against warpage. Warp is any distortion of the door itself on width, length or diagonal and is measured by placing a straight edge on the concave face and determining the maximum distance from straight edge to door face. Warp does not refer to the relationship of the door to the face frame or cabinet box.
- The warranty covers replacement or repair of doors or drawer fronts in an unfinished state and in good condition as originally delivered F.O.B. our factory. Our liability will be limited to the net invoice price of the defective items, and CabParts® cannot be responsible for any other damages or loss of profits.
- Changes or cancellations after order approval may incur additional charges.
- Pricing is to the actual square footage, with a minimum door or drawer front charge of two square feet per piece. Inside and outside profiles are included.
- Doors over 48” tall or 24” wide will have a center rail or stile included and will incur an upcharge. If placing that rail or stile at other than the center (standard), the location must be specifically and clearly noted in the order.
- Glass door frames are rabbeted to receive the glass. Glass and stop are not provided, but rubber stop is optional – specify glass thickness.
- Paint grade is mill choice, with MDF panels (plywood optional).

AVAILABLE SPECIES / OTHERS BY REQUEST:

- Alder (clear or rustic)
- Cherry
- Hickory (heart, rustic heart, calico)
- Maple
- Oak, red
- Oak, white
