716 Arrowest Road
Grand Junction, CO 81505
970.241.7682
cabparts@cabparts.com

Since 1987, CabParts® has been proudly serving building trade customers - including cabinet shops, residential and commercial builders and remodelers, architects, designers, and other cabinet related manufacturers. CabParts® is a second-generation family-owned business located in Grand Junction, Colorado.

CabParts® manufactures full-access, European style, cabinet boxes - together with drawers, doors, drawer fronts and closet systems - all to your specifications. All components are shipped flat-packed and arrive with each piece clearly labeled and ready for quick and efficient assembly.

We can also supply functional hardware, dovetailed drawer boxes and wood 5-piece doors and drawer fronts.

To become a CabParts customer and/or place your first order, please go to **cabparts.com/order-now**

DIMENSIONS TO FIT YOUR SPECIFICATIONS - Custom or standard sizing, components are built for each order and delivered ready for quick & easy assembly.

FLEXIBLE TO YOUR DESIGN - All components are configured to your specific requirements. Standard item or custom design? 32mm or custom boring patterns? Whatever specifications you need, we can provide.

RESIDENTIAL OR COMMERCIAL - Exceed your customer's expectations with casework that is at home in any building, wherever you need them – from homes to hospitals to schools to offices; whether new, remodel, or repair.

GREAT FREIGHT RATES - We are proud to call Grand Junction Colorado home, and if that sounds far away that's because it probably is. Because of our semi-remote location, we have a lot of shipping to us but not a whole lot of shipping out. This is great for our customers because we get low freight rates allowing you to keep your costs down.

TERMS AND CONDITIONS

Please note, you must be a building trade-related professional to order from CabParts®. Verification of your trade relation, business and tax status will be required in order to establish a new account with us. We sell wholesale, not retail, business-to-business. If you are a homeowner, please have your building trade professional contact us to arrange purchasing through CabParts®.

ORDERS AND QUOTES

- Orders will be placed in line for production upon receipt of your Order Confirmation and an initial 50% or complete payment.
- CabParts® makes every reasonable effort to ship on, or before, the projected ship date shown in your Order Confirmation. However, the actual date may vary.
- Quotes do not receive a projected ship date and are not entered into production. Quotes are valid for only 30 days from the date of submittal.
- CabParts® cannot take phone orders.

PAYMENT

- CabParts® requires a minimum 50% deposit due at approval for production. Any balance is due prior to shipping. CabParts® encourages payment of 100% at time of approval to avoid shipping delays.
- Payment may be made by company check, cashier's check, or credit/debit card through our Merchant One payment portal. We accept Visa, MasterCard. Discover, and American Express.
- Delay of the deposit will affect production timing and may affect shipping date.

RETURNS

- Authorization must be obtained from CabParts® within 10 business days of delivery. for the return of any CabParts® product, including hardware.
- Any parts made to order or made with special order material are not returnable unless defective.
- All returns, unless for defects, are subject to a restock fee and the customer must pay return shipping costs

SHIPPING

- Orders are shipped freight pre-paid via common carrier, ground package or may be "Will Call" at the factory. Customers may arrange their own shipping, or request "Freight Charges COD."
- Hard siding of pallets, for increased protection, is available for an additional charge and additional pallets, if requested by the customer, will be assessed a fee-per pallet.
- A Packaging & Handling Fee may be charged based on unusual packaging - for example, a small Order required to go LTL (on a pallet) vs. ground package. Freight companies may add charges for shipping tubes or pallets 93" or longer.
- All Orders are F.O.B. Grand Junction, Colorado.

WARRANTY

- CabParts® warrants the components it manufactures to be free from defects in material and workmanship, to be machined to correct size and with the correct milling to accomplish easy and accurate assembly. CabParts® makes no further warranty either expressed or implied.
- Since assembly and installation are not done by CabParts® and are beyond our control, CabParts® makes no warranties in regard to assembly or installation.

DISCLAIMER

- CabParts® will not be responsible for any expenses incurred by the customer due to unexpected delays in factory production, delivery, jobsite installation, assembly time due to incorrect parts or delay for replacement (warranty) parts, freight damage replacement parts, natural or manmade disaster or any other situation not listed here.
- CabParts® reserves the right to change pricing and/or specifications at any time.

GENERAL INFORMATION

CABINET BOXES are Made-To-Order (MTO) and the customer specifies the cabinet box type and configuration, including dimensions, case materials and edging, hardware, and drilling.

MATERIALS STOCKED by CabParts® include white, almond, gray, black and natural maple thermally fused laminates (TFL); pre-finished maple plywood, paint-grade maple veneer on MDF, white veneer core plywood and raw unfaced MDF.

Numerous other materials can be ordered as well – see the Cabinet Material Selections section for examples.

CASE ASSEMBLY: Choose your preferred method of Confirmat screws (standard, with alignment dowels inserted) or dowel and glue (dowels factory inserted).

Dowel and glue will be applied automatically for exposed finished sides/ends on otherwise Confirmat boxes.

CASE EDGEBANDING: CabParts® will apply .5mm-3mm thick PVC or ABS, laser/hot air ABS (no glue line), wood veneer, 3mm solid wood, plastic laminate edgebanding, or no edgebanding at all – your choice.

DOORS AND DRAWER FRONTS can be supplied by CabParts®, sized to fit your specific order, and made with any currently available panel material and edgebanding.

CabParts® can also provide unfinished wood five-piece door and drawer fronts in a number of wood species.

Many other door types and styles can be outsourced from a variety of high-quality manufacturers.

For **BUYOUT DOORS AND DRAWER FRONTS** CabParts® will supply a listing of suggested sizes (may not currently be available)

DRAWER BOXES are sized to fit the cabinet box and the guide hardware chosen in your order.

Standard drawer boxes are cut from CabParts® stock 5/8" thick melamine, with ¼" thick bottoms. Other options, including dovetailed solid wood, dovetailed plywood and Blum Legrabox are available for your order as well. Dovetailed drawer boxes wider than 34" will have a center bottom rail added for support.

DRAWER ASSEMBLY is your choice of Confirmat steel screws or standard factory preinserted dowels and glue.

DRAWER EDGEBANDING:

Melamine drawer boxes will be edged with .5mm thick PVC to match the drawer box material.

Wood veneer (plywood or MDF core) drawer boxes will have matching .5mm thick wood veneer edging applied.

Baltic Birch type plywood drawer boxes will be left unedged as the standard.

HARDWARE: CabParts® order options include functional hardware from manufacturers such as Blum and Hafele.

If you select from CabParts® stock hardware, we guarantee it will fit and function in your CabParts® cabinet.

All hardware is subject to availability.

CABPARTS® IS NOT A RETAILER - WE SELL TO QUALIFIED TRADES, WHOLESALE ONLY.

FOR NON-TRADE SALES PLEASE TALK TO YOUR BUILDING PROFESSIONAL IF YOU WISH TO USE CABPARTS®.

To become a CabParts customer and/or place your first order, please go to **cabparts.com/order-now**

MISCELLANEOUS CHARGES & CREDITS

OPTIONAL UNEDGED CASES
CabParts Cabinet Boxes may be customer ordered as "unedged" (raw edge with no edgebanding). Most often this option is specified so a customer supplied face frame may be applied to the cabinet boxes. Please specify your required cabinet box depth. No credit is offered for unedged product.

PANEL CHARGES
CabParts reserves the right to assess an additional charge, or panel charge, compensating for excessive material waste or remnants not required for production of the order. An example might be one small cabinet box cut from a small portion of one (expensive) material sheet. This charge will not apply to stock materials, but may be applied for special-order, non-stock, or custom materials.

CNC PROGRAM & SETUP FEE
Complex, customer specified, drilling or machining patterns which require programming for the CNC machinery may be assessed a Program and Setup Fee, with a 1 hour minimum. This fee will be added to the Order and is based on actual time required. Check with your Sales Rep for current pricing.

NON-STANDARD CNC TOOLING FEE
An Order which would require the purchase of special CNC tooling, not normally used by CabParts, will have the cost of special tooling added to the customer's Order. This will be a onetime fee and CabParts will retain ownership of the tooling.

CUSTOMER DRIVEN ORDER REVISIONS
After the initial entry and submission of an Order, but prior to production, the customer may request revisions to the order. However, please be aware that all revisions must be re-acknowledged by the customer for accuracy.

The **first and the second** customer requested revisions are at no charge to the customer.

With the **third** customer requested Order revision, and for each successive Order revision, the customer may incur a revision fee per revision cycle. The fee will be calculated based upon the complexity of the order and the stage in the order/production process at the time of the revision, as well as the status of any special order or custom materials or hardware included in the order. Revision fees will be clearly shown on each re-acknowledged Order.

Orders released into production cannot be revised. Customers will be sent a notice when an order is about to enter production, in addition to a projected ship date when the order is approved and down payment is made.

Please be aware that changes may affect the production and delivery schedule.

PALLETIZING OPTIONS
Additional Pallets, beyond those normally required to deliver an Order, may be requested by the customer at an additional charge. For example, if an Order would normally require 1 pallet weighing 1,000 pounds, but the customer, for ease of handling on a jobsite, might request 2 pallets at 500 pounds each, this would require 1-Additional Pallet and a resulting pallet charge.

Hardsiding, also known as "boxing" a pallet, is an option available upon customer request and at an additional charge. Hardsiding may be required for safe delivery. For example, some locations in New York City require hardsiding as do pallets going offshore in sea containers.

Overlength pallets (generally longer than 93-96") will incur a freight surcharge, which is levied by the freight company and will be included in any freight billing through CabParts. Overlength charges do not apply to materials placed in will-call for customer pickup.

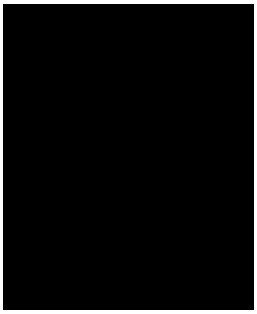

PACKAGING & HANDLING FEE
CabParts reserves the right to charge a Packaging & Handling Fee based on (1) excessive or unusual packaging, (2) customer requested special handling requirements or (3) small orders that require LTL delivery vs. ground package delivery. If applied, this fee is assessed by CabParts as a net cost, on a case-by-case basis and is at our discretion.

FURTHER CUSTOMIZING OF CABINET BOXES
On request, we can do many other things to assist you in customizing your cabinets.

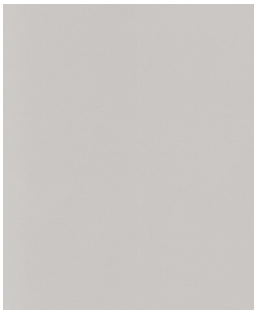

Examples: A customer specified location of fixed shelves, additional full or partial dividers, a 3rd row of line boring in a deep cabinet, moving the line boring forward to accommodate a customer-applied face frame, deleting a cabinet bottom and extending a back down, knock down shelves, etc. Those customized components or services are priced per order.

Wall Cabinets

GENERAL NOTES AND STANDARDS

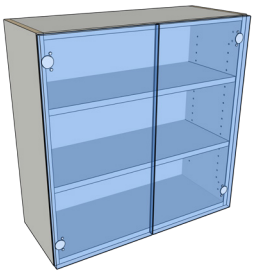

Standard wall cabinets are 11-3/4” deep

CabParts® does NOT recommend single doors greater than 24” wide.

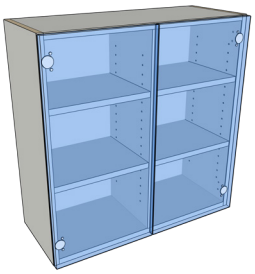

On wall cabinets, ALWAYS apply a bead of commercial quality construction adhesive or hot melt glue to the junction between the back and cabinet box parts, and/or toenail the back to the case parts in using narrow crown staple or pin nails.

Cabinets, except angled or radius corner cabinets (WA or WRAD), include nailers at top and bottom, in back

PANELS, CUT TO SIZE

- **Cut to size panels** may be ordered from any stocked CabParts® sheet goods, or from special ordered materials. Customer must specify panel size by width and height.
- Minimum panel height & width are both 3"
- Defaults to all four edges banded. To change, use the configurator for that line item in the online order form.

Doors & Drawer Fronts

GENERAL NOTES AND STANDARDS

Customer chooses panel material, finish, and edgeband treatment

CabParts® offers many options for Doors & Drawer Fronts, see chart on following pages

CabParts® provides a complimentary Door & Drawer Front size list for each order (may not be currently available)

All doors may be drilled for Euro style hinges, for example: Blum brand

WOOD DOORS & DRAWER FRONTS

CabParts® is pleased to make available, in addition to our flat panel laminate and melamine offerings, a selection of **unfinished** wood doors and drawer fronts in various species and styles. We can help you reduce your time per job, produce more, and sell more, all while maintaining your standards for high quality.

- Each unit is cut to size, sanded and inspected one at a time, ensuring that you receive products you will be proud to use in your jobs.
- All solid wood panels are allowed to "float" within the frame with clearance on all sides to allow for expansion and contraction caused by changes of temperature and/or humidity.
- Arches are geometrically designed to maintain uniform style regardless of widths.
- Sizes can be in inches or millimeters. We will cut to the nearest 1/32" or whole millimeter and sizes are guaranteed to within +/- 1/32" of the given measurements.
- Standard thickness is 13/16".
- CabParts® guarantees material and workmanship for one year from date of shipment. This guarantee is voided by improper storage, handling, or finishing on the part of the customer or final consumer.
- Warpage is guaranteed to 3/16", however cabinet doors over 24 inches wide or 44 inches tall are not guaranteed against warpage. Warp is any distortion of the door itself on width, length or diagonal and is measured by placing a straight edge on the concave face and determining the maximum distance from straight edge to door face. Warp does not refer to the relationship of the door to the face frame or cabinet box.
- The warranty covers replacement or repair of doors or drawer fronts in an unfinished state and in good condition as originally delivered F.O.B. our factory. Our liability will be limited to the net invoice price of the defective items, and CabParts® cannot be responsible for any other damages or loss of profits.
- Changes or cancellations after order approval may incur additional charges.
- Pricing is to the actual square footage, with a minimum door or drawer front charge of two square feet per piece. Inside and outside profiles are included.
- Doors over 48" tall or 24" wide will have a center rail or stile included and will incur an upcharge. If placing that rail or stile at other than the center (standard), the location must be specifically and clearly noted in the order.
- Glass door frames are rabbeted to receive the glass. Glass and stop are not provided, but rubber stop is optional – specify glass thickness.
- Paint grade is mill choice, with MDF panels (plywood optional).

Closets

GENERAL NOTES AND STANDARDS

Closet Components are either modular preconfigured assemblies (with options) or individual components - panels, shelves, etc. Use either system or both in combination for a wide range of applications including, for example: reach-in or walk-in closets, storage areas or garage storage.

The available materials are ¾" thick and include the listed stock or custom materials.

Installation systems include either European hanging brackets for wall mounted rails or doweled and rabbeted cleats.

CabParts Closet Components come with all the necessary hardware required for assembly. Modular closet rods and cups are included. Hanging rail is ordered separately, as needed, by the customer. Other installation supplies, such as screws to attach to the wall, are customer supplied.

For a project requiring floor-set cabinet/closet boxes, please see the main Cabinet Catalog sections for Base, Vanity, Desk or Tall cabinets.

For Closet Drawer Boxes you may specify 5/8" melamine or dovetailed wood, with standard or soft-close PRO-100 side mount slides or Tandem undermount soft-close slides. Melamine drawer boxes can be dowel and glue or Confirmat screw assembly. Dovetailed wood drawers can include optional scoops in front, with no drawer fronts.

GENERAL INFORMATION

CLOSET COMPONENTS are Made-To-Order (MTO) and the customer specifies the closet module type and configuration, case materials and hardware.

AVAILABLE CLOSET MATERIALS INCLUDE:

Stocked:
- White

Custom materials upon request, subject to availability.

EDGEBANDING is to match the material selected, with laser/hot air if available.

CLOSET ASSEMBLY: Module components are assembled with Rafix-style cam fittings.

ATTACHMENT TO THE WALL is by user selected rabbeted cleats with dowels (included) or suspension hangers and rails (purchase rails and covers separately).

CABPARTS® IS NOT A RETAILER - WE SELL TO QUALIFIED TRADES, WHOLESALE ONLY.

FOR NON-TRADE SALES PLEASE TALK TO YOUR BUILDING PROFESSIONAL IF YOU WISH TO USE CABPARTS®.

STANDARD DRAWER BOXES are 5/8" thick melamine with ¼" or 5/8" thick bottoms.

AVAILABLE MATERIALS INCLUDE:

- White
- Almond
- Black
- Gray
- Natural Maple
- Birch plywood
- SALT Anthracite linen
- SALT Buff Linen
- SALT Magnolia Linen

DOVETAILED DRAWER BOXES ARE AVAILABLE and are made from birch plywood or solid beech or maple wood.

Melamine drawer boxes wider than 34-1/8" will have thicker melamine bottoms, rabbeted-in for strength, depending on material chosen. Dovetailed drawer boxes wider than 34" will have a center bottom rail added for support.

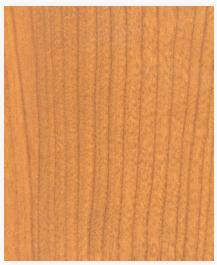

DRAWER SLIDES are user's choice of Pro 100 standard or Pro 100 soft-close, side mount ballbearing slides; or Blum Tandem soft-close undermount slides.

DRAWER ASSEMBLY is your choice of Confirmat steel screws or standard factory preinserted dowels and glue.

HARDWARE: Choices of hardware type and finish are included wherever applicable. Using functional hardware from CabParts® stock hardware will guarantee that it will fit and function in your CabParts® closet.
